Professional Summary:

Experienced Senior Front-End Developer with over 13 years of experience in building responsive, high-performance web applications across diverse industries. Specialising in HTML, CSS, & JavaScript, I am dedicated to leveraging the latest technologies to continue developing innovative web solutions that enhance user experience.

Professional Experience

Create.

Senior Front-End Developer - at Create., 2016 - Present

<https://creategroup.me/>

- Lead a team of front-end developers, elevating standards and ensuring high-quality deliverables across all projects.
- Spearhead the development of responsive web applications using ReactJS, Gulp, Bootstrap, and SASS, significantly enhancing user engagement and satisfaction.
- Design, build, and maintain efficient, reusable, and reliable code, contributing to a 30% increase in application performance.
- Implement MVC architectural patterns and clean coding practices to streamline code maintenance.
- Conduct extensive cross-browser and cross-device testing to ensure consistent user experiences, reducing bugs by 20%.

UI Developer - at *Ephlux*, 2011 - 2015

<https://www.ephlux.com/>

- Managed and executed all front-end aspects of web and mobile app projects, achieving a 25% faster project turnaround.
 - Developed user interfaces using HTML5, CSS3, and jQuery within Gulp, Bootstrap, and SASS environments, enhancing application responsiveness and accessibility.
 - Led UX initiatives, including wireframe creation and usability testing, which improved user engagement metrics by up to 40%.
 - Ensured rigorous testing for cross-browser, cross-platform, and cross-device compatibility, maintaining over 98% consistency across platforms.
 - Also managed UI design tasks, completing and enhancing designs initiated by the lead designer, and developing additional design components as needed.
-

Skills

Core Competencies:

- **Web Development:** Expertise in HTML5, CSS3, JavaScript (ES6+), SCSS, and responsive design practices.
- **Frameworks & Libraries:** Proficient in ReactJS, Next.js; experienced with Angular and Vue.js for dynamic web applications.
- **Animation & Interactive Design:** Skilled in PIXI.js, Lottie Web, and GSAP for engaging animations and interactive elements.

Development Tools:

- **Version Control:** Advanced proficiency with GIT, including branching and rebasing workflows.
- **Build Tools:** Experienced in using Gulp for task management; familiar with Webpack for continuous integration and deployment.
- **Code Quality:** Proficient in utilising ESLint and Prettier to ensure code consistency & quality.

Design & UX/UI:

- **Graphic Design:** Skilled in Adobe Illustrator, Photoshop, & Figma, primarily using them for extracting assets, while occasionally creating designs for UI components.
- **User Experience:** Ability to craft user-centred designs, develop wireframes, and add suggest UX that will be intuitive to users through the years of experiences about what works and what not.

Additional Technical Skills:

- **API Development and Integration:** Experienced in both consuming and designing RESTful services.
- **SEO & Performance Optimization:** Knowledgeable in optimising site architecture for search engines and enhancing site speed and performance metrics.

Professional Soft Skills:

- **Leadership:** Proven track record leading development teams and setting project standards.
 - **Communication:** Effective communicator with the ability to explain complex technical concepts to non-technical stakeholders.
 - **Problem Solving:** Strong analytical skills with a focus on finding innovative solutions to coding and design challenges.
-

Portfolio

Over the past decade, I have led and contributed to numerous high-profile projects, demonstrating advanced technical skills and leadership. Below are highlights:

Create Group

URL: <https://creategroup.me/>

Led the UI development for Create Group's corporate website, innovating with a custom CMS and GSAP animations. This project, completed under tight deadlines, leveraged my extensive experience and showcased our firm's capabilities to potential clients.

Living Museum

URL: <https://www.livingmuseum.com/>

I was a key developer on this advanced project, integrating ReactJS, PixiJS, NextJS, and custom-built JavaScript components to deliver a rich interactive experience.

Visit Abu Dhabi

URL: <https://visitabudhabi.ae/en>

As the lead UI developer, managed the entire UI development department through agile development cycles, interfacing with multiple teams and overseeing all phases from planning to delivery. This leadership contributed significantly to winning government contracts repeatedly.

EBDA

URL: <https://ebda.com/>

Created engaging user interactions through smooth transitions, focusing on content visibility and user engagement on the educational platform.

Union Day

URL: <https://unionday.ae/>

Directed the UI/UX development for this culturally significant project, implementing engaging parallax and dynamic animations. Delivered high-quality design and functionality under tight deadlines, ensuring a highly interactive and engaging user experience.

Al Tamimi

URL: <https://www.tamimi.com/>

Led the front-end redesign for a major law firm's website across multiple Middle Eastern countries, coordinating closely with the CMS backend team to enhance user experience.

Abu Dhabi Culture All

URL: <https://abudhabiculture.ae/cultural/en/>

Developed a user-friendly platform featuring smooth transitions and clean layouts to promote Abu Dhabi's cultural activities.

Qasr Al Hosn

URL: <https://qasralhosn.ae/>

Implemented custom animations & unique design elements to elevate the standard of this cultural heritage website.

Cultural Foundation & Children's Library

URL: <https://culturalfoundation.ae/en/>, <https://culturalfoundation.ae/en/childrenslibrary>

Developed a main site and a minisite, enhancing Abu Dhabi's cultural offering with visually appealing animations and interactive elements.

AIUla Design Studio

URL: <https://uds.rcu.gov.sa/en>

This was a particularly challenging project as we had to bind a frame sequence with scroll and interactive tabs from a development perspective.

My personal Projects:

<https://infinitecharacter.ai/>

I created this to solve the consistent characters problem in stable diffusion in early 2022.

<https://pagelume.com/>

I am currently working on this project to create an intuitive website builder.
